APOLLO (SV)

- **High concentration of LEDs** – this new product has been designed to offer a choice of up to 72 LEDs per 500mm, and 144 LEDs per 1000mm LED strip to substantially increase light output.
- An **integrated switch** can be included in this design to give an easy switching option.
- A **Power LED** version is also available providing more light output for areas where a more concentrated light source is required.
- **Choice of 3 light angles** – the internal LED strip can be positioned in 3 different angles by the user to direct the light exactly where it is needed.
- **Quick & easy to install** – the SV Series is simply fixed into place by the end caps, making it suitable for both new vehicle specifications and retro fitting into existing vehicles.

X LENGTHS: SVCW250 = 360mm SVCW500 = 610mm SVCW1000 = 1110mm

SPECIFICATION

ALL DIMENSIONS HAVE A TOLERANCE OF +/- 1mm
