CALLISTO (LD10)

- **Super-bright LEDs** - The Callisto utilises the latest LED technology to give a high intensity light source, which offers a lighting solution for multiple applications.
- **Stylish, compact design** - The Callisto has a minimal and sleek design. Its bezel is only 58mm in diameter, ensuring that the Callisto has minimal impact on your ceiling.
- **Cool running temperature** - Most halogen down-lighters will reach temperatures in the region of 90°C. As LEDs run at a much lower temperature, the Callisto provides a much safer lighting option without compromising on light output.
- **Multiple LED and bezel colour options** - The Callisto is available with a range of different coloured LEDs and bezels. Also available are dual colour LED Callistos.
- **Waterproof option** - A waterproof Callisto is available which protects the light from moisture ingress to IP67.

Specification

ALL DIMENSIONS HAVE A TOLERANCE OF +/- 1mm

CALLISTO (LD)

		LD101 BCMVP	LD102 BC6
Voltage Range	VDC	10 to 32	12 or 24
Average Current	A	12V = 0.16 24V = 0.09	12V = 0.034 24V = 0.017
