

■ LED POLE LIGHT (LL3)

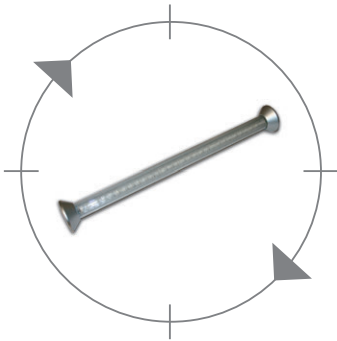

- Long life high intensity LEDs
- 2 year guarantee
- Adaptable to fit required width/pole height
- Low energy (only 2.2W)
- Waterproof to IP67

LED POLE LIGHT (LL3)

- **Long life high intensity LEDs*** – the LED Pole Light incorporates the Orizon LED strip light which uses the latest in LED technology offering optimum performance and extended life. The properties of these LEDs give greater luminosity allowing us to offer a brighter unit whilst using fewer LEDs to maintain the low power draw.
- **2 year guarantee*** – the high quality properties of this unit have enabled us to offer you an extended guarantee.
- **Adaptable width/height** – the LED Pole Light is the perfect solution for illuminating areas such as cupboards/wardrobes (strong enough for hanging purposes) and in replacement of standard poles as it can be constructed to a particular bespoke specification**.
- **Low energy** – the LED Pole Light will give a light reading of 35 Lux which is the equivalent to a 10W halogen bulb but uses 5 times less power in comparison, so it can be left on for much longer without draining the battery.
- **Waterproof to IP67** – the PCB, components and LEDs are completely encapsulated with polyurethane protecting against moisture ingress.
- The LED Pole Light can be switched remotely or it is also available with an integrated on/off rocker switch which fits neatly into the endcap.
- Available in Cool White (LL3CW) and Warm White (LL3WW).

* PV2 LED strips

** Within a given tolerance

SPECIFICATION

ALL DIMENSIONS HAVE A TOLERANCE OF +/- 1mm

LED POLE LIGHT (LL3)

Model No		LL3	LL3/2
Supply Voltage	Vdc	12	24
Voltage Range	Vdc	10 to 16	20 to 32
Average Current	A	0.18	0.11
Total Lumen Output	Lm	130	130
Tube/Bulb/LEDs	W	2.2W	2.2W
Weight	Kg	0.43	0.43
Temp. Range	°C	-30 to +40	-30 to +40
