NORDIC SERIES (DL)

The NORDIC series is one of the most successful low voltage lights ever designed! Constructed on an aluminium base, the laminated PVC shade can simply be clipped into place, making installation and tube replacement quick and easy. This slim low profile light also incorporates an on/off push switch situated at one end. The NORDIC series is available in 8w and 13w, 12v and 24v, making it a bright and versatile light unit suitable for illuminating many different applications across all market sectors.

SPECIFICATION

ALL DIMENSIONS HAVE A TOLERANCE OF +/- 1mm

NORDIC SERIES (DL)

Model No		DL9K	DL9/2	DL14K	DL14/2
