LABCRAFT'S LED SCENELITE CHOSEN BY COLEMAN MILNE

Coleman Milne, suppliers of specialist vehicles to UK police forces, has unveiled its latest Police support vehicle.

Ordered by Volkswagen to be a specialist Police demonstrator, the Crafter-based support vehicle has seating for 10 Police personnel together with holding cells at the rear of the vehicle. The interior of the vehicle is fully lined with polycarbonate material and suitably insulated. The vehicle has storage facilities for riot shields and other Police equipment. Amongst the list of electrical equipment specified for the vehicle and installed by Coleman Milne are a reversing camera, split charging system and comprehensive interior and exterior lighting.

The Labcraft LED Scenelite was chosen for the exterior to provide a well-lit zone around the vehicle. Producing over 1200 lumens, whilst using only 18W of power, the Scenelite provides a bright, energy efficient lighting option.

The Scenelite produces superior illumination due to its unique design; the LEDs are directed at clever angles to distribute light to where you need it most. Utilising high output Cree LED technology, the Scenelite produces a clean white light and creates a safer working environment.

CHRISTMAS WISHES

Labcraft would like to thank you for your continued support and business throughout 2012 and wish you all a Merry Christmas and Happy New Year 2013.

This year, instead of sending Christmas cards, Labcraft will be making a donation to Fledglings. This is a national charity that finds and sells products that improve the lives of disabled children and their families.

MOVEMBER 2012

November has been an itchy scratchy month for the males at Labcraft for the very good cause of mens cancers, raising a total of £800. Thank you to all of you that have sponsored one or more moustache-wearing chaps and for those of you that would still like to donate and view the moustache gallery visit http://www.mobro.co/labcraft
